The Career Chronicles Mike Gregory

2010-11-17 In this nuts-and-bolts guide, over 750 professionals speak candidly about "the good, the bad, and the ugly" of two dozen popular professions. Dispensing with romantic fantasies, real-world professionals – from nurses and pharmacists to architects and attorneys – speak about the day-to-day realities of their careers in six categories: College vs. Reality The Biggest Surprise Hours and Advancement The Best and the Worst Changes in the Profession Would You Do It All Over Again? Chapters include overviews of each profession, followed by helpful information about education, testing, and registration and licensing requirements; the number of positions across the country; and the average starting or median annual salaries. This valuable resource is filled with the open, personal insights and observations most students and career-changers want – and need – to make informed decisions about what they will do with the rest of their lives.

[Green Jobs for a New Economy](#)

2009-12-14 Helps readers make the

most of job opportunities that have arisen from the New Energy for America plan, providing information on projected salary ranges, where jobs are most available and how to find jobs and including articles on green topics and job data. Original. **William R. Collings** Dorothy Langdon Yates 1985 Forty years after Dow Corning Corporation was founded, a group of us, all veteran employees, fell to discussing the good old days. Incidents involving Dr. William R. Collings, the company's pioneer leader, kept coming up. As we compared notes we realized that ours had been a unique opportunity-to participate in the birth and growth of this new company. Equally, we appreciated our experience of knowing and working with an entrepreneurial manager. What were the characteristics of this unusual person and why was he outstandingly effective? We decided to capture his style by collecting anecdotes from all ranks of his workers and associates. These real life stories illustrate his ways of dealing with the start-up of a new company. The momentum from the early days has accelerated under the Presidents who followed Collings: Shailer L. Bass, William C. Goggin, John S. Ludington, and currently, Lawrence A. Reed. Dow Corning Corporation is today approaching a billion dollars in annual sales. We have presented the Collings stories so as to be of special interest and help to students of business working to formulate a leadership style. New employees joining Dow Corning who may have assumed that progress is automatic will here glimpse the trials and triumphs of the remarkable beginnings of a great company. In addition, we trust that our customers and suppliers, businessmen, and the general public will all find these recollections both interesting and

provocative, contributing to an understanding of the personal dimension of business. Readers of the book will have touched our roots and breathed some of the air that made living and working with the pioneer leader of Dow Corning Corporation as the enterprise was launched both challenging and fun.--- from the Preface.
