2013-12-17 110 BC: The world cowers before its legions, but Rome is about to be engulfed by a vicious power struggle that will threaten its very existence. At its heart are two exceptional men: Gaius Marius, prosperous but lowborn, a proud

and disciplined soldier emboldened by his shrewdness and self-made wealth; and Lucius Cornelius Sulla, a handsome young aristocrat corrupted by poverty and vice. Both are men of extraordinary vision, extreme cunning and ruthless ambition, but both are outsiders, cursed by the insurmountable opposition of powerful

and vindictive foes. If they forge an alliance, Marius and Sulla may just defeat their enemies, but only one of them can become First Man in Rome. The battle for Rome has just begun. Please note: This ebook contains all the original maps and illustration.

Shutdown Adam Tooze 2021-09-07 FINALIST FOR THE ORWELL PRIZE FOR POLITICAL WRITING 2022 THE TIMES BOOKS OF THE YEAR 2021 'A complex story, which Tooze tells with clarity and verve... The world is unlikely to be treated to a better account of the economics of the pandemic' The Times 'A seriously impressive book, both endlessly quotable and rigorously analytical' Oliver Bullough, The Guardian From the author of Crashed comes a gripping short history of how Covid-19 ravaged the global economy, and where it leaves us now When the news first began to trickle out of China about a new virus in December 2019, risk-averse financial markets were alert to its potential for disruption. Yet they could never

have predicted the total economic collapse that would follow in COVID-19's wake, as stock markets fell faster and harder than at any time since 1929, currencies across the world plunged, investors panicked, and even gold was sold. In a matter of weeks, the world's economy was brought to an abrupt halt by governments trying to contain a spiralling public health catastrophe. Flights were grounded; supply chains broken; industries from tourism to oil to hospitality collapsed overnight, leaving hundreds of millions of people unemployed. Central banks responded with unprecedented interventions, just to keep their economies on life-support. For the first time since the second world war, the entire global economic system contracted. This book tells the story of that shutdown. We do not yet know how this story ends, or what new world we will find on the other side. In this fast-paced, compelling and at times shocking analysis, Adam Tooze surveys the wreckage, and looks at where we might be headed next.

Walkable City Jeff Speck 2012-11-13 Jeff Speck has dedicated his career to determining what makes cities thrive. And he has boiled it down to one key factor: walkability. The very idea of a modern metropolis evokes visions of bustling sidewalks, vital mass transit, and a vibrant, pedestrian-friendly urban core. But in the typical American city, the car is still king, and downtown is a place that's easy to drive to but often not worth arriving at. Making walkability happen is relatively easy and cheap; seeing exactly what needs to be done is the trick. In this essential new book, Speck reveals the invisible workings of the city, how simple decisions have cascading effects, and how we can all make the right choices for our communities. Bursting with sharp observations and real-world examples, giving key insight into what urban planners actually do and how places can and do change, *Walkable City* lays out a practical, necessary, and eminently achievable vision of how to make our normal American cities great again.

Smarter Faster Better Charles Duhigg 2016-03-24 In the international bestseller *The Power of Habit*, Pulitzer Prize-winning journalist Charles Duhigg explained why we do what we do. In *Smarter Faster Better*, he applies the same relentless curiosity, rigorous reporting and rich storytelling to explain how we can get better at the things we do. The result is a groundbreaking exploration of the science of productivity. A group of data scientists at Google embark on a four-year study of how the best teams function, and find that how a group interacts is much more important than who is in the group. A Marine Corps general, faced with low morale among recruits, reimagines boot camp - and discovers that instilling a 'bias toward action' can turn even the most directionless teenagers into self-motivating achievers. The filmmakers behind Disney's *Frozen* are on the brink of catastrophe - until they shake up their team in just the right way, spurring a creative breakthrough that leads to

one of the highest-grossing movies of all time. What do these people have in common? They know that productivity relies on making certain choices. The way we frame our daily decisions; the big ambitions we embrace and the easy goals we ignore; the cultures we establish as leaders to drive innovation: these are the things that separate the merely busy from the genuinely productive. At the core of Smarter Faster Better are eight key concepts - from motivation and goal-setting to focus and decision-making - that explain why some people and companies get so much done. Drawing on the latest findings in neuroscience, psychology and behavioural economics - as well as the experiences of CEOs, educational reformers, four-star generals, airplane pilots and Broadway songwriters - this painstakingly researched book explains that the most productive people, companies and organizations don't merely act differently. They view the world, and their choices, in profoundly different

ways.

Stepbrother Untouchable Colleen Masters 2015-01-14 Calling Nate Thornhill a rich, cocky, arrogant asshole would be an understatement. He also happens to be stunningly handsome, popular, intelligent, and captain of both the Crew and Lacrosse teams at

UVA. I hate him for thinking he's untouchable-not because he's a narcissistic, privileged, borderline-misogynistic heartbreaker-but because he's right.His first words to me were at a Crew House party, and he invited me to have a threesome with him and a random girl. I could've died from the embarrassment, he didn't even know my name at the time, and he didn't care to. After that night, I promised myself to never waste another second thinking about Nate Thornhill.My world becomes a nightmare when I realize my mom's new husband Pierce has a son who's my age...and he's a junior at UVA too. I can't believe my eyes when Nate walks over and sits down next to us at dinner, introducing himself like he's never seen me before in his life. Then I feel his hand on my thigh, underneath the tablecloth with our parents sitting across from us, inching closer and closer to my panties. My mind goes fuzzy, my heart starts racing, and my body does exactly what I don't want it to do.And then they hit me with the worst news of

all...Pierce has an internship lined up for me at his firm, and we're going to live at his Eastern Shore mansion for the summer.I'll be sleeping down the hall from my new stepbrother...arguing with him at every breakfast, sitting across from him at every dinner, watching as he brings an endless string of girls back to his room...secretly wishing I was one of them.Stepbrother Untouchable is a Stand-alone novel. It contains adult themes, harsh language, and graphic sexual content.

On Writing Stephen King 2012 In 1999, Stephen King began to write about his craft -- and his life. By midyear, a widely reported accident jeopardized the survival of both. And in his months of recovery, the link between writing and living became more crucial than ever. Rarely has a book on writing been so clear, so useful, and so revealing. On Writing begins with a mesmerizing account of King's childhood and

his uncannily early focus on writing to tell a story. A series of vivid memories from adolescence, college, and the struggling years that led up to his first novel, *Carrie*, will afford readers a fresh and often very funny perspective on the formation of a writer. King next turns to the basic tools of his trade -- how to sharpen and multiply them through use, and how the writer must always have them close at hand. He takes the reader through crucial aspects of the writer's art and life, offering practical and inspiring advice on everything from plot and character development to work habits and rejection. Serialized in the *New Yorker* to vivid acclaim, *On Writing* culminates with a profoundly moving account of how King's overwhelming need to write spurred him toward recovery, and brought him back to his life. Brilliantly structured, friendly and inspiring, *On Writing* will empower--and entertain--everyone who reads it.

You've GOT to Read This Book! Jack Canfield

2009-10-13 There's nothing better than a book you can't put down—or better yet, a book you'll never forget. This book puts the power of transformational reading into your hands. Jack Canfield, cocreator of the bestselling *Chicken Soup for the Soul*® series, and self-actualization pioneer Gay Hendricks have invited notable people to share personal stories of books that changed their lives. What book shaped their outlook and habits? Helped them navigate rough seas? Spurred them to satisfaction and success? The contributors include Dave Barry, Stephen Covey, Malachy McCourt, Jacquelyn Mitchard, Mark Victor Hansen, John Gray, Christiane Northrup, Bernie Siegel, Craig Newmark, Michael E. Gerber, Lou Holtz, and Pat Williams, to name just a few. Their richly varied stories are poignant, energizing, and entertaining. Author and actor Malachy McCourt tells how a tattered biography of Gandhi, stumbled on in his youth, offered a shining example of true humility—and planted the seeds

that would help support his sobriety decades later. Bestselling author and physician Bernie Siegel, M.D., tells how William Saroyan's *The Human Comedy* helped him realize that, in order to successfully treat his patients with life-threatening illnesses, "I had to help them live—not just prevent them from dying." Actress Catherine Oxenberg reveals how, at a life crossroads and struggling with bulimia, a book taught her the transforming difference one person could make in the life of another—and why that person for her was Richard Burton. Rafe Esquith, the award-winning teacher whose inner-city students have performed Shakespeare all over the world, recounts his deep self-doubt in the midst of his success—and how reading *To Kill a Mockingbird* strengthened him to continue teaching. Beloved librarian and bestselling author Nancy Pearl writes how, at age ten, Robert Heinlein's science fiction book *Space Cadet* impressed on her the meaning of personal integrity and gave her a vision of world peace

she'd never imagined possible. Two years later, she marched in her first civil rights demonstration and learned that there's always a way to make "a small contribution to intergalactic harmony." If you're looking for insight and illumination—or simply for that next great book to read—*You've Got to Read This Book!* has treasures in store for you.

The Song of Troy Colleen McCullough

2014-03-01 It was a clash of arms that would echo through the millennia: a hard-fought conflict born of love, pride, greed and revenge; a decade-long siege of the ancient world's greatest city from which nobody will escape unscathed. As urgent and passionate as if told for the first time, international bestseller Colleen McCullough breathes life into legend, swinging our sympathies from Greece to Troy and back again as they move inexorably towards a fate not even the gods themselves can avert. Here are Greek princess Helen, sensuous and self-indulgent, who deserts a dull husband for the sake of the equally self-indulgent Trojan prince Paris; the haunted warrior Achilles; the heroically noble Hector; the subtle and brilliant Odysseus; Priam,

King of Troy, doomed to make the wrong decisions for the right reasons; and Agamemnon, King of Kings, who consents to the unspeakable to launch his thousand ships, incurring the terrifying wrath of his wife, Klytemnestra. THE SONG OF TROY: A legend reborn.

Cognition in the Wild Edwin Hutchins

1996-08-26 Edwin Hutchins combines his background as an anthropologist and an open ocean racing sailor and navigator in this account of how anthropological methods can be combined with cognitive theory to produce a new reading of cognitive science. His theoretical insights are grounded in an extended analysis of ship navigation—its computational basis, its

historical roots, its social organization, and the details of its implementation in actual practice aboard large ships. The result is an unusual interdisciplinary approach to cognition in culturally constituted activities outside the laboratory—"in the wild." Hutchins examines a set of phenomena that have fallen in the cracks between the established disciplines of psychology and anthropology, bringing to light a new set of relationships between culture and cognition. The standard view is that culture affects the cognition of individuals. Hutchins argues instead that cultural activity systems have cognitive properties of their own that are different from the cognitive properties of the individuals who participate in them. Each action for bringing a large naval vessel into port, for example, is informed by culture: the navigation team can be seen as a cognitive and computational system. Introducing Navy life and work on the bridge, Hutchins makes a clear distinction between the cognitive properties of

an individual and the cognitive properties of a system. In striking contrast to the usual laboratory tasks of research in cognitive science, he applies the principal metaphor of cognitive science—cognition as computation (adopting David Marr's paradigm)—to the navigation task. After comparing modern Western navigation with the method practiced in Micronesia, Hutchins explores the computational and cognitive properties of systems that are larger than an individual. He then turns to an analysis of learning or change in the organization of cognitive systems at several scales. Hutchins's conclusion illustrates the costs of ignoring the cultural nature of cognition, pointing to the ways in which contemporary cognitive science can be transformed by new meanings and interpretations. Good and Cheap Leanne Brown 2015-07-14 A perfect and irresistible idea: A cookbook filled

with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving

itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.

Beauty and the Running Back Colleen Masters
2016-07-21 Dean Carter
No girl is off-limits to Rayburn University's star running back. Not even the coach's daughter. Hell, I'm about to bring this school an NCAA Championship, the least I'm owed is a piece of that sweet little home-grown ass of hers. For the first time in my life, something about Jessa Baker has me

reeling. I can't shake the thought of her innocent smile, the smell of her perfume, or the way her hips sway mockingly back and forth as she walks away from me. I know she wants me, I know she can barely help herself, I know because of the way her body betrays her every time we touch...but the wrath of her father-my coach-stops her dead in her tracks. Every. Time. I've lived my entire life one yard at a time, taking what I want, when I want it, and accepting nothing less. There are no consequences when you're a campus god. There's nothing that can stop me, on or off the field, from getting this girl. Jessa Cahill Sure, on the surface Dean Carter seems like the stereotypical asshole jock, the sorority-wet-t-shirt-contest-loving frat boy, the womanizing man-slut. But I know that deep down, underneath the football pads and layers of tattooed-muscle, there's a man worth losing everything for. My father would kill us both if he found out that I let Dean "know me" that way. He'd murder us if he found out my tutoring

sessions with Dean involved learning more than just English literature...A guy like Dean can be addictive, dangerous, sexually exquisite...but all actions have consequences. Beauty and the Running Back is a full-length contemporary sports romance novel. This book involves a lot of hot steamy sex, and a little football. 18+, HEA, no cliff.

It Ends with Us Colleen Hoover 2020-07-28 In this “brave and heartbreaking novel that digs its claws into you and doesn’t let go, long after you’ve finished it” (Anna Todd, New York Times bestselling author) from the #1 New York Times bestselling author of All Your Perfects, a workaholic with a too-good-to-be-true romance can’t stop thinking about her first love. Lily hasn’t always had it easy, but that’s never stopped her from working hard for the life she wants. She’s come a long way from the small town where she grew up—she graduated from college, moved to Boston, and started her own

business. And when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily’s life seems too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He’s also sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn’t hurt. Lily can’t get him out of her head. But Ryle’s complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his “no dating” rule, she can’t help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan—her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. An honest, evocative, and tender novel, *It Ends with Us* is “a glorious and touching read, a forever keeper. The kind of book that gets handed down” (USA TODAY).

Stepbrother Bastard Colleen Masters

2015-07-15 It started off as a dare...a harmless one-night-stand with a complete stranger. He was just another badboy I met in a bar, a harmless fling to start my summer vacation. One unbelievable night of sex, and I'd never have to see him again. But the next morning as I pull up to the lake house my mom has rented for the summer, I get the feeling my world is about to crumble...it was just supposed to be us girls-me, my two sisters, and Mom...but we're not alone...Apparently my mom's old high school sweetheart John owns the house, and he has three sons, all around the same age as me and my sisters. And they thought it would be a great idea to put us all together under the same roof for four weeks. We'll have to share bedroom

walls, sit down for family dinners, and suffer through a million other forced, awkward, sexually confusing family activities I'm sure...And then I realize my mom's new boyfriend has a son a little older than me. I see him barreling toward me on a 4-wheeler, a lit cigarette between his lips, strangely familiar tattoos on his muscular forearms and chest...as he gets closer I'm filled with dread as I begin to realize who he is...but he isn't slowing down. The f*cking prick nearly runs into me. As he takes off his helmet I'm instantly filled with horror and an undeniable twinge of excitement between my legs. It's him. The man who took me last night, used me every which way, stretched me more than any man I've ever been with before...and now he's ignoring me, acting like he's never seen me before in his life. I have a feeling it's going to be a fun summer. This Contemporary New Adult Stepbrother Romance Novel is the first book in the three book Hawthorne Brothers series. The ending is HFN. The book contains harsh

language, sexual content, and adult situations that may offend some readers.

Stepbrother Broken Colleen Masters 2015-08-29
Only Lukas Hawthorne could simultaneously
break my spirit, crush my dreams...and make me

dripping wet. He's a legend on campus—a star athlete with records that'll never be broken. I always see him on campus walking around with some new hot piece of ass, and I dream about what it would be like to be the one on his arm...It's totally unfair to have such an effortlessly handsome grad student as my TA. Who knew economic theory could be so sexy? Problem is, I've been so distracted by him all semester that now I'm failing his course, and I need pass if I hope to graduate on time. He wants to meet with me after class, to discuss how I can make up my grade this summer...extra assignments, private lessons...whatever it takes. But when a disgusting realization is made—our

student-teacher sex sessions are permanently interrupted. Our parents are engaged. They're madly in love and can't wait to make me, Lukas, and all of our siblings one big happy family. To make matters worse, we have to endure a family vacation at his father's lake house. Together. A million miles away from everything. Thing is, the more inappropriate my desire is for him, the more intensely it burns...and he isn't shy about meeting me halfway. According to him, we're going to defile every room and every surface of his father's house before we go back to school. Challenge accepted.
