Practical Watch Repairing Donald De Carle 2020-02-07 Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch in precise and meticulous detail: a thing which has never been done so completely before in the many books on the same subject. As a text book it is a revelation. Taking nothing for granted, except the ability to read and comprehend a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing ...and to deal with them thoroughly is quite a programme - it takes 300 pages containing 24 chapters, two appendices and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best illustrated book on practical horology yet issued, and one of the best of its kind on any subject. The publication of the book marks the beginning of a new epoch in the study of the mechanics of horology.

Cliffs Of Fall Shirley Hazzard 2021-01-14 Shirley Hazzard's stories are sharp, sensitive portrayals of moments of crisis. Whether they are set in the Italian countryside or suburban Connecticut, the stories deal with real people and real problems. In the title piece, a young widow is surprised and ashamed by her lack of grief for her husband. In 'A Place in the Country,' a woman has a passionate, guilty affair with her cousin's husband. In 'Harold,' a gawky, lonely young man finds acceptance and respect through his poetry. Moving and evocative, these ten stories are written with subtlety, humour and a keen understanding of the relationships between men and women.

Building a Special with Ant Anstead Master Mechanic Ant Anstead 2021-07-20 Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.

The Boatowner's Guide to Corrosion Everett Collier 2006-07-12 "The best explanation that I have seen of corrosion on boats."—Nigel Calder, author of Boatowner's Mechanical and Electrical Manual "A powerful weapon in the war against metal deterioration."—Cruising World Corrosion is a constant, often expensive, and sometimes dangerous problem for boaters. Moisture, salt, electrical currents, and chemicals create a potent combination that can attack the metallic (and sometimes nonmetallic) parts of your boat. Everett Collier, an expert in marine technology, details all the types of corrosion—including simple galvanic, electrochemical, and electrolytic—and explains how to identify, combat, and prevent them. The most comprehensive book on this subject, The Boatowner's Guide to Corrosion shows you how to: Prevent corrosion with proper grounding, cathodic protection, protective coatings, and careful selection and matching of metal parts Protect your boat's hull, deck gear, masts, and rigging, as well as its propulsion, electrical, plumbing, and steering systems Recognize and cure developing corrosion before it can damage your boat
