**100 Things to Know Before Using Hypnosis** Aaron Butler 2022-02-14 Don't try to run before you can walk. We all have a tendency to get a bit excited and try to run before we can walk. This is never truer than when we learn something as exciting and life changing as hypnosis. The temptation to go out into the big wide world and show everyone our new found skill is almost overwhelming. Of course it is important to practice since this is the only way to get better. The problem is that sometimes while we are gaining experience through practice we make mistakes. Fine if you are painting your house. You just start again. This is not the case when dealing with something as delicate as the human mind.

Instead of learning by your mistakes, which in this game, can be devastating, it would be nice to benefit from others who have made faux pas through inexperience. That is the purpose of this volume of work. Find out the things that you either don't get told by others or you can easily forget in your eagerness to get stuck in. I call these Rules. They are of course not strictly rules they are guidance for the beginner, take head of them follow them and you won't go too far wrong. Although they are numbered this does not reflect in any way their importance In fact they are all as important as one another. If you are thinking of using hypnosis in any way, you should read this book first. It might just save your skin.
