**Caring for Veterans and Their Families: A Guide for Nurses and Healthcare Professionals** Rita F. D'Aoust 2021-11-22 Of the approximately 20 million veterans of the U.S. armed forces, less than half utilize the Veteran's Health Administration health care system. That means the majority of veterans are receiving care from nurses and healthcare professionals who may not be trained in treating or caring for patients who have served in the military. This unique book guides nurses and healthcare professionals through the specific needs veterans can present, including but not limited to PTSD. Topics covered include, defining military culture and how to apply that knowledge to provide informed treatment, transitioning from service to civilian life and the many challenges expected during re-adjustment and re-entry, recognizing and treating substance use disorders, identifying suicidal behaviors and warning signs, long-term care for elderly veterans, and many more topics unique to the healthcare of veterans.

*The Alps* Krista Dana 2007 This book is a great general guide to all the skiing areas in the Alps. Better than any other book I looked at. One bone to pick: It doesn't include Verbier, Switzerland. The authors had to cut the book off somewhere, I guess. The book is paperback and small -- easy to carry with you while you travel. Since I was unfamiliar with the Alps, I referred to it often on my ski trip to Switzerland and France. It gave the perfect amount of background info to each location and then had good, concise sections re: where to eat, where to party and where to stay. Bravo to the authors for obviously putting effort into creating an easy-to-read, concise and informative resource. -- Rahmit Olsen (Amazon reviewer). An avid skier and hiker, the author has explored terrain ranging from Switzerland's Matterhorn to South Korea's Muju Mountain. The author of more than 800 travel features, hotel reviews and destination guides, she shares her vast knowledge of ski and adventure travel in the Alps and Europe. --Ingram Advance Magazine. As portable as they are helpful and heavily illustrated as well, the volumes in this series remain very reliable in making certain that adventure is a major ingredient of your trip. -- Booklist. Designed to be used while you re on the go, Hunter's Pocket Adventures fit in your pocket with ease and make the perfect take-along reference. They contain all the practical travel information you need - places to stay and eat, tourist information resources, travel advice, emergency contacts and more - plus condensed sections on history and geography that give you good background knowledge of the destination. The authors are fascinated with the destination and their passion comes across in the text, which is lively, revealing and a pleasure to read. Sidebars highlight unusual facts and tell of local legends, adding to your travel experience. Detailed town and regional maps make planning day-trips or city tours easy. Adventures covered range from town

sightseeing tours and nature watching to sea kayaking and organized jungle excursions. Travelers looking for a more relaxed vacation may want to sign up for language classes or take a course on traditional regional cooking - these cultural adventures will introduce you to the people and afford you a truly unique travel experience. Maps and photos throughout.

**Guide for the Use of the Cortina Phone-Method by Individuals and in Classes** Antonio Palacios 2017-10-26 Excerpt from Guide for the Use of the Cortina Phone-Method by Individuals and in Classes: French Course The instructor in the class room, whether it be composed of adults or children, can call upon the students in turn to operate the instrument for him. Three or four periods are assigned to each Lesson of the Cortina Method, the number being gov emed by the ability of the students to cover the ground. Not less than three periods should be devoted to each lesson of the book, however, and when time permits, the records should be played through even oftener than is indicated, for the outstanding feature of this method is constant listening to train the ear and constant repetition to train the organs of speech.
