Come Fly the World

Julia Cooke 2021-04-08 Travel writer Julia Cooke's exhilarating portrait of Pan Am stewardesses in the Mad Men era.

Glamour, danger, liberation: in the Jet Age, Pan Am offered

young women the world. Come Fly the World tells the story of the stewardesses who served on the iconic Pan American Airways between 1966 and 1975 – and of the unseen diplomatic role they played on the world stage. Alongside the glamour was real danger, as they flew soldiers to and from Vietnam and staffed Operation Babylift – the dramatic evacuation of 2,000 children during the fall of Saigon. Cooke's storytelling weaves together the true stories of women like Lynne Totten, a science major who decided life in a lab was not for her, to Hazel Bowie, one of the relatively few African American stewardesses of the era, as they embraced the liberation of a jet-set life. In the process, Cooke shows how the sexualized coffee-tea-or-me stereotype was at

odds with the importance of what they did, and with the freedom, power and sisterhood they achieved.

I was a Teenage Zucchini Bomb Steve Sheinkin 2012-09-04
In December

of 1938, a chemist in a German laboratory made a shocking discovery: When placed next to radioactive material, a Uranium atom split in two. That simple discovery launched a scientific race that spanned 3 continents. In Great Britain and the United States, Soviet spies worked their way into the scientific community; in Norway, a commando force slipped behind enemy lines to attack German heavy-water manufacturing; and deep in the desert, one brilliant group of scientists was hidden away at a remote site at Los Alamos. This is the story of the plotting, the risk-taking, the deceit, and genius that created the world's most formidable weapon. This is the story of the atomic bomb. - Appearance and body image
- Dating, breakups, and dealing with sexual feelings
