**Assessments for Home Education Curriculum Weekly Tests and Recording Forms Second Grade** Instructional Fair (Firm) 1999-06-01 Directly correlates with the lesson plans presented in our Home Education Curriculum series IF27000PB-IF27005PB. Evaluation methods may include simple illustration, matching, fill-in-the-blank, sentence completion, true/false, definitions, map work, short essay answers, and more. Checklists for each subject area allow home educators to keep track of skills that have been mastered or need more attention. Two-sided.

*Theme-based Nonfiction Reading Comprehension, Grade 5* Linda Ramke 2003 With the increased focus on literacy in the classroom, it is more important than ever to provide students with interesting reading activities. These reading activities should help develop students' fluency, vocabulary, and comprehension. This book has been written thematically. The use of themes increases reading comprehension skills by focusing students' attention on one subject rather than having to adjust their thoughts to several. The activities reinforce comprehension skill such as finding the main idea, summarizing, inferencing, comparing and contrasting, sequencing, and classification. The activities include a variety of multiple choice, fill-in-the-

blank, short answer, and long answer questions.

Readings and activities trace the historical beginnings and progress to the present, showing the significance of each pathway. Activities based on NCSS Standards.

Super Sub Lorilynn 2000 Being a substitute teacher is a demanding and challenging job, even when the classroom teacher leaves behind well-laid plans. But when teachers are called away unexpectedly, the role of the substitute teacher becomes even more challenging! The strategies and activities in Super Sub come to the rescue with a wealth of ideas to make the day a good experience for both students and substitute

teacher. There are great games and all-about-the-student activities that can be used with many different grade levels. Included are teacher-directed and reproducible activities appropriate for language arts, math, science, and social studies. This great resource will give the substitute teacher the confidence to make every day a great day in the classroom.

**Inexpensive Science Experiments** Pam Walker

2000 Not all science teachers have ready access to the equipment and materials they need to perform many of the experiments they would like to assign. If you are one of those teachers, you can stretch those science budget dollars with the labs included in *Inexpensive Science Experiments*. Gathering needed materials is quick, easy, and inexpensive, and many of the experiments are even cost free! Instructions are clear and concise with each lab accompanied by a teacher information page highlighting the objectives, the approximate time required for completion, teaching strategies, and an evaluation rubric. Each student lab includes a background page, pre-lab questions, a procedure page, and a set of post-lab questions.

**Math Mind Stretchers** 2000-02 Promotes math knowledge through fun instruction with problems throughout the book. Answers are in the back.
