*Consumer Bulletin Annual* 1974

*The Briefcase* Charles Holt 2017-08-09 Is money truly the root of all evil? When Chester Harte finds a briefcase full of money—lots of money—a battle of wits ensues between the naval engineer and a dogged DEA Special Agent. From the Florida Keys to Connecticut casinos and some of the country’s best-known racing tracks, The Briefcase takes the reader on a riveting adventure as several parties join in the hunt for the missing sting money. Relationships blossom, wither, and are challenged; and mafia and drug cartel involvement lead to violence and murder. All the while, Chester Harte must race to stay one step ahead of those intent on recovering the briefcase.

*Good Housekeeping* 2001

**The Essentials of Real Estate Law** Lynn T. Slossberg 2014-02-26 Offering consistent coverage of both substantive and procedural law, this fully revised edition of Slossberg’s hands-on book features new cases, new case files, updated forms, and new material related to the recent real estate recession. Slossberg includes hypothetical and sample cases exploring a variety of scenarios that will help students understand real estate law and practice paralegal skills. Numerous checklists and worksheets used in today’s law offices are included to help the reader prepare for a paralegal career. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

*Dwell* 2004-09 At Dwell, we’re staging a minor revolution. We think that it’s possible to live in a house or apartment by a bold modern architect, to own furniture and products that are exceptionally well designed, and still be a regular human being. We think that good design is an integral part of real life. And that real life has been conspicuous by its absence in most design and architecture magazines.

**Parents Guide to the Internet** Jay LaBonte 2006 Every day an unsuspecting child meets a sexual predator in an Internet chat room and what may happen next is every parent’s nightmare. With millions of children using the Internet with limited or no adult supervision an unknowingly interacting with sexual predators, it is a very dangerous, and in many cases a deadly combination. Marilyn Mailman Segal, Ph.D., developmental psychologist specializing in early childhood development, and dean emeritus of the Family Center at Nova Southeastern University had this to say: Jay LaBonte has done an outstanding job in writing 'Parents Guide to the Internet' to guide parents to help their child enjoy their computer without being victimized. This book gives parents the information they need to become just as savvy as their children. For more information visit http: //www.jaylabonte.com/details/pgi001.ht

**Hacking the Earthship** Rachel Preston Prinz 2015-03-25 Hacking the Earthship: In Search of an Earth-Shelter that Works for EveryBody is a comprehensive collection of academic and in-the-field research findings on Earthships, combined with practical how-to advice for designing and financing your own truly sustainable earth-sheltered home. Rachel Preston Prinz and contributing authors discuss the history, research, design issues, and evolution of Earthships, drawing on the knowledge of thousands of builders, craftsmen, and designers who have mastered the art of earth sheltering. Then, they walk readers step by step through design, offering a wealth of resources that can inspire, inform, and educate. Within, readers will find the tools needed to understand their place’s culture, architecture, and climate... and the ideal building methods for their climate, personality, values, and budget. THE NEW GENERATION OF EARTHSHIP ENTHUSIASTS: • Does not want to cart questionable building materials long distances and call it “green”. • Wants to build locally and naturally... and they want to build it themselves. • Wants their buildings to be cool in summer, warm in winter, the humidity to be predictable and regular; and they want to minimize pests and allergens. • Wants to be able to get a permit and insurance, and resell their homes if they want to; or pass them on if they can. • They want a smaller home that is “just right”... for their budget, time, ability, energy use, and maintenance. • They want to make their home easy to manage, maintain, and get around in, even if they are in a walker or wheelchair. • They want their home to feel like it is made from and relating to the earth: in views, in light, in fresh air, in the ability to grow food, and in a beautiful landscape that supports the home. Finding the balance between all these desires is a delicate and lengthy process of discernment, study, and goal-setting. That is what this book aims to help you do. Chapter 1 THE EARTHSHIP REALITY PROJECT discusses the issues and resolutions of the design. Chapter 2 THE SCIENCE: ACADEMIC RESEARCH AND TIRE OFF-GASSING reviews academic and scientific research on Earthships. Chapter 3 A WAY FORWARD discusses financing and insurance, minimizing waste, managing the build, visioning, and Code requirements. Chapter 4 THE BUILDING’S CONTEXT AND SITE addresses the site and landscape. Chapter 5 DESIGNING FOR THERMAL COMFORT addresses natural, mechanical, and design options for improving thermal performance. Topics covered include passive solar design; thermal mass versus insulation; earth-coupling versus earth-sheltering; thermal and moisture protection; and natural ventilation. Chapter 6 THE STRUCTURAL SYSTEM addresses the ways we can form the building’s structure. Chapter 7 THE ENCLOSURE SYSTEM outlines the construction of the building’s envelope or skin. We discuss traditional earthship building blocks like tire, glass, and can walls, as well as alternative systems like adobe, cob, rammed earth, earthbags, wood block concrete forms, timber frame, log, cordwood, and strawbale buildings. We also cover various roofing options as well as doors and windows. Chapter 8 ROOMS, SPACES, COLORS, & TEXTURES discusses how we can create a home we love. Chapter 9 MECHANICAL SYSTEMS outlines basic mechanical, electrical, and plumbing considerations, especially on-grid systems since those are what make an Earthship most affordable. Chapter 10 IMBUING SPACE WITH SPIRIT addresses psychological and spiritual aspects of design. Chapter 11 CONCLUSION: A NEW SET OF EARTH-SHELTER BUILDING CRITERIA Chapter 12 OVERWHELMED? NEED HELP? discusses some helpful tips if you hire an architect or residential designer . The APPENDICES offer resources and worksheets. Portions of the proceeds will go to our non-profit architectural education programs ARCHITECTURE FOR EVERYBODY and BUILT FOR LIFE.

**Green Building Products** Alex Wilson 2013-10-18 Interest in sustainable, green building practices is greater than ever. Whether concerned about allergies, energy costs, old-growth forests, or durability and long-term value, homeowners and builders are looking for ways to ensure that their homes are healthy, safe, beautiful, and efficient. In these pages are descriptions and manufacturer contact information for more than 1,400 environmentally preferable products and materials. All phases of residential construction, from sitework to flooring to renewable energy, are covered. Products are grouped by function, and each chapter begins with a discussion of key environmental considerations and what to look for in a green product. Over 40 percent revised, this updated edition includes over 120 new products. Categories of products include: Sitework and landscaping Outdoor structures Decking Foundations, footers, and slabs Structural systems and components Sheathing Exterior finish and trim Roofing Doors and windows Insulation Flooring and floor coverings Interior finish and trim Caulks and adhesives Paints and coatings Mechanical systems/HVAC Plumbing, electrical, and lighting Appliances Furniture and furnishings Renewable energy Distributors and retailers An index of products and manufacturers makes for easy navigation. There is no more comprehensive resource for both the engaged homeowner and those who design and build homes. Editor Alex Wilson is president of BuildingGreen, an authoritative source for information on environmentally responsible design and construction, which also publishes Environmental Building News. Co-editor Mark Piepkorn has extensive experience with natural and traditional building methods.
