Gibbons 2013-05-14 With a supernatural undercurrent, *The Fourth Marker* is the story of an elderly man, Gabriel Townsend, whose spirit is being crushed between the metaphoric anvil of his pragmatic views and the falling hammer of his wife's pending death. The story revolves around a family, the Townsends, whose heritage is partly Native American. The United States' Indian Removal Act of 1830, which resulted in the Trail of Tears episode in American history, required all indigenous people, with few exceptions, to leave their tribal lands in the southeast and east, along the eastern seaboard. Some Lenape (Delaware) tribal members on the Delmarva Peninsula as well as other areas in the east, defied the government and remained on their ancestral lands, hiding from authorities in the Great Pocomoke Forest, outlying islands, and swamps on the southern peninsula. A conscious decision to "hide in plain sight" or not, they eventually intermarried and bred with local whites, African-Americans, and mulattoes. Many families whose ties to Delmarva date back a hundred years or more share a heritage with those aboriginal people; however, the prejudice and racial bias of a bygone era caused many to ignore – even deny – their lineage. In the story, while a child on the family farm during the Great Depression, Gabe Townsend rejected legends of his Native American ancestors and ignored miraculous cures of family members. Gabe's half-breed grandfather, Noopah, tried to teach him tribal legends and the old ways, explaining that, after most Indians had been killed or driven from their lands by the Army and settlers, tribal elders returned to their lands in spirit form after their deaths. They dwelled at a sacred hill on the family's land and protected their descendants from early death and white man's diseases. During those years, three family members were cured of life-threatening diseases, but Gabe's mother blindly credited their recoveries to the nascent field of modern medicine. After each recovery, a person of evil character and not of tribal blood disappeared, followed by the mysterious appearance of a wood marker on the sacred tribal hill. Yet, despite those events and Noopah's words, Gabe adhered to his mother's intractable views. Now facing the loss of his wife, he relives his childhood memories, guided by the spirit of his grandfather from beyond – well beyond – the grave. Finally understanding the truth of long ago, he decides to beg the tribal spirits to take his life in exchange for his wife's, aware that a fourth marker would signify his own life – and death. As Gabe's father noted, "some understand only what they see; others see only what they understand." *The Fourth Marker* highlights this most human of vices against the backdrop of Native American legends with ample helpings of farm life during the Great Depression.

Augusten Burroughs's mother gave him away to be raised by her psychiatrist, a dead ringer for Santa Claus and a certifiable lunatic into the bargain. Penguin Classics Introduction to News from Nowhere and Other Writings by William Morris (Penguin Classics) Clive Wilmer 2004

News from Nowhere - William Morris William Morris 2021-06-15 *News from Nowhere* is a classic work combining utopian socialism and soft science fiction written by the artist, designer and socialist pioneer William Morris. It was first published in serial form in the *Commonweal* journal beginning on 11 January 1890. Up at the League, says a friend, there had been one night a brisk conversational discussion, as to what would happen on the Morrow of the Revolution, finally shading off into a vigorous statement by various friends of their views on the future of the fully-developed new society. Says our friend: Considering the subject, the discussion was good-tempered; for those present being used to public meetings and after-lecture debates, if they did not listen to each others opinions (which could scarcely be expected of them), at all events did not always attempt to speak all together, as is the custom of people in ordinary polite society when conversing on a subject which interests them. For the rest, there were six persons present, and consequently six sections of the party were represented, four of which had strong but divergent Anarchist opinions. One of the sections, says our friend, a man whom he knows very well indeed, sat almost silent at the beginning of the discussion, but at last got drawn into it, and finished by roaring out very loud, and damning all the rest for fools; after which befel a period of noise, and then a lull, during which the aforesaid section, having said good-night very amicably, took his way home by himself to a western suburb, using the means of travelling which civilisation has forced upon us like a habit. As he sat in that vapour-bath of hurried and discontented humanity, a carriage of the underground railway, he, like others, stewed discontentedly, while in self-reproachful mood he turned over the many excellent and conclusive arguments

which, though they lay at his fingers ends, he had forgotten in the just past discussion. But this frame of mind he was so used to, that it didnt last him long, and after a brief discomfort, caused by disgust with himself for having lost his temper (which he was also well used to), he found himself musing on the subject-matter of discussion, but still discontentedly and unhappily. If I could but see a day of it, he said to himself; if I could but see it!

[Why I Write](#) George Orwell 2021-01-01 George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

[The Routledge Companion to William Morris](#) Florence S. Boos 2020-10-30 William Morris (1834–96) was an English poet, decorative artist, translator, romance writer, book designer, preservationist, socialist theorist, and political activist, whose admirers have been drawn to the sheer intensity of his artistic endeavors and efforts to live up to radical ideals of social justice. This Companion draws together historical and critical responses to the impressive range of Morris's multi-faceted life and activities: his homes, travels, family, business practices, decorative artwork, poetry, fantasy romances, translations, political activism, eco-socialism, and book collecting and design. Each chapter provides valuable historical and literary background information, reviews relevant opinions on its subject from the late-nineteenth century to the present, and offers new approaches to important aspects of its topic. Morris's eclectic methodology and the perennial relevance of his insights and practice make this an essential handbook for those interested in art history, poetry, translation, literature, book design, environmentalism, political activism, and Victorian and utopian studies.

The Kilkenny Cat - Book Three William Forde 2015-02-13 This author's works have been praised by numerous celebrities, the most notable being Nelson Mandela who described two of his African stories as 'Wonderful', the late Princess Diana who used to read two of his books to the Princes William and Harry when they were aged 9 and 7 years, and a former Chief Inspector of Schools for The Office for Standards in Education, Children's Services and Skills (OFSTED), who described the author's writing to the press as being of 'High quality literature.' *The Kilkenny Cat* has been written as a trilogy. Book One deals with the theme of 'truth', Book Two with 'justice', and Book Three on the theme of 'freedom'. All three books seek to show that truth, justice or freedom cannot exist in isolation, and that the only way one can experience any one of them is when one is able to experience all three. Book Three is set in the English North and has as its backdrop, the riots that embraced this area from the 1990s onwards. Recent riots all around the country merely reflect how deeply rooted the 'gang culture' of Great Britain has since become. The trilogy is designed to show that every country on the face of the Earth exercises discrimination against some of its citizens. The nature of discrimination may subtly change and vary from one country and situation to another in both shape and form, but it will always be present in some degree for those of us who care to look. Particular forms of discrimination looked at in this trilogy include the issues of colour, race, religion, age, culture, sexism, disability, homophobia, gypsies, asylum seekers, refugees and economic migrants. These issues are looked at through the eyes of travelling cats, whose experiences mirror those of human society. Overarching all the themes of this trilogy is the issue of 'Good' versus 'Evil', where the terms 'God' and 'Satan' are used to denote opposing values, qualities and lifestyles. The speech of the cat characters who come from Jamaica is distinguished from the speech used by non-Jamaican cats by changing the word 'you' to 'ya' and its

linguistic associates, and no attempt has been made to replicate the patois more commonly used by many Jamaican citizens. The Kilkenny Cat Trilogy is an allegorical story of all manner of discrimination practised throughout the world; and particularly in Ireland, Jamaica and England. Told through the eyes and experiences of travelling gypsy cats, it is a must for all cat lovers and students of the discrimination, the 'Northern Riots', Ireland, Jamaica and Northern England and 'Good v Evil.' It is suitable for reading by teenagers and adults.

Contemporary Thought on Nineteenth Century Socialism Kevin Morgan 2020-12-15 For historians of the international labour movement, the decades before 1914 were the golden age of Marxist thought. In this flowering of socialist thinking, Britain seemingly had no part, and the question has been asked instead: 'Why was there was no Marxism in Britain?' The selections in this volume confirm that Marxist ideas in Britain were not always pitched at the highest theoretical level. There are also examples of the reductionism to which leading exponents were sometimes prone. Nevertheless, there is also a richness and outspokenness across wide and varied themes that belies the caricature of arid economic determinism. Marxists believed they carried on the tradition of home-grown movements of struggle such as Chartism. They also identified with the new spirit of internationalism whose ideas and personalities filled the pages of their periodicals. Behind such well-known names as William Morris, James Connolly and Tom Mann, a wider movement of contrarians remains to be discovered.

Of Mice and Men John Steinbeck 2021-03-12 *Of Mice and Men* is a novella written by John Steinbeck and first published in 1937. It chronicles the experiences of George Milton and Lennie Small, two displaced migrant ranch workers, who move from place to place in California in search of new job opportunities during the Great Depression in the United States. Steinbeck based the novella on his own experiences working alongside migrant farm workers as a teenager in the 1910s (before the arrival of the Okies that he would describe in *The Grapes of Wrath*). The title is taken from Robert Burns' poem "To a Mouse", which reads: "The best laid schemes o' mice an' men / Gang aft agley". (The best laid schemes of mice and men / Often go awry.) While it is a book taught in many schools, *Of Mice and Men* has been a frequent target of censors for vulgarity, and what some consider offensive and racist language; consequently, it appears on the American Library Association's list of the Most Challenged Books of the 21st Century.

William Morris Fiona MacCarthy 1995 Winner of the Wolfson History Prize, the essential biography of the father of the Arts and Crafts movement. The author, Fiona MacCarthy, is the curator of the National Portrait Gallery's 2014-15 exhibition *Anarchy and Beauty: William Morris and His Legacy*. 'One of the finest biographies ever published in this country' A. S. Byatt Since his death in 1896, William Morris has come to be regarded as one of the giants of the Victorian era. But his genius was so many-sided and so profound that its full extent has rarely been grasped. Many people may find it hard to believe that the greatest English designer of his time, possibly of all time, could also be internationally renowned as a founder of the socialist movement, and could have been ranked as a poet together with Tennyson and Browning. With penetrating insight, Fiona MacCarthy has managed to encompass all the different facets of Morris's complex character, shedding light on his immense creative powers as artist and designer of furniture, fabrics, wallpaper, stained glass, tapestry and books, and as a poet, novelist and translator; his psychology and his emotional life; his frenetic activities as polemicist and reformer; and his remarkable circle of friends, literary, artistic and political, including Dante Gabriel Rossetti and Edward Burne-Jones. Fiona MacCarthy's skilful drawing together of these disparate elements makes for a comprehensive and compelling biography.

The world's most powerful newspaper barons – which of them will triumph? At first glance, Richard Armstrong and Keith Townsend seemed to have little in common. One was the son of an illiterate peasant, who emerged from the most backward corner of a Europe ravaged by a bitter war. The other was raised in a mansion on the far side of the world while the war was just another piece of news. One was a hustler, a thief, ready to change even his identity, if it would gain him a momentary advantage. The other was the scion of a well-known family, groomed for a public role, a rebel who didn't care if anyone approved of what he got up to. One craved wealth, recognition, status. The other quickly discovered that real power comes from anonymity. But they did have one thing in common. Both of them were gamblers. Both were prepared to risk everything in their battle to control the biggest newspaper empire in ~~the world~~ *Nowhere*
