Reading Across International Boundaries Roger Openshaw 2007-06-01 Reading Across International Boundaries, edited by Roger Openshaw and Janet Soler, clearly demonstrates these broader characteristics of debates about the teaching of reading. It sets the educational issues firmly in the context of the social, cultural and political dynamics that inform and animate them and give them their meaning. It does so by setting out to understand their historical and comparative dimensions. Establishing the historical context highlights the origins and also the longevity of the problems and conflicts that are now widely familiar. The comparative approach also gives purchase on the wide range of approaches taken to these issues in nations around the world. More than this, however, this collection takes us into the realm of international influences. It underlines how debates in this area are not simply national, but are international and global in their scale. Moreover this is the case not only in relation to the broad fabric of policy debate, but also in the everyday struggles of pupils, parents and teachers in schools, classrooms and homes. Such an agenda is unsettling and provocative. It has the potential to challenge received opinion, to hustle preconceptions. It may also propose alternative visions for the improvement of teaching in this area that might be taken up and taken seriously in different localities or even more broadly. Most of all, it enables us to enrich and broaden our understanding of the learning and the teaching of reading at a time when awareness and vision are sorely needed. This collection of articles by leading scholars based in several different countries will be a significant contribution to the research field, but also a major resource when put to good use by policy makers and practitioners, as it should surely be.

THE YEAR A LIBRARY JOURNAL BEST BOOK SELECTION • A BOOKLIST EDITORS' CHOICE BOOK SELECTION One doctor's passionate and profound memoir of his experience grappling with race, bias, and the unique health problems of black Americans When Damon Tweedy begins medical school,he envisions a bright future where his segregated, working-class background will become largely irrelevant. Instead, he finds that he has joined a new world where race is front and center. The recipient of a scholarship designed to increase black student enrollment, Tweedy soon meets a professor who bluntly questions whether he belongs in medical school, a moment that crystallizes the challenges he will face throughout his career. Making matters worse, in lecture after lecture the common refrain for numerous diseases resounds, "More common in blacks than in whites." Black Man in a White Coat examines the complex ways in which both black doctors and patients must navigate the difficult and often contradictory terrain of race and medicine. As Tweedy transforms from student to practicing physician, he discovers how often race influences his encounters with patients. Through their stories, he illustrates the complex social, cultural, and economic factors at the root of many health problems in the black community. These issues take on greater meaning when Tweedy is himself diagnosed with a chronic disease far more common among black people. In this powerful, moving, and deeply empathic book, Tweedy explores the challenges confronting black doctors, and the disproportionate health burdens faced by black patients, ultimately seeking a way forward to better treatment and more compassionate care.

Since debuting as the host of Jeopardy! in 1984, Alex Trebek has been something like a family member to millions of television viewers, bringing entertainment and education into their homes five nights a week. Last year, he made the stunning announcement that he had been diagnosed with stage four pancreatic cancer. What followed was an incredible outpouring of love and kindness. Social media was flooded with messages of support, and the Jeopardy! studio received boxes of cards and letters offering guidance, encouragement, and prayers. For over three decades, Trebek had resisted countless appeals to write a book about his life. Yet he was moved so much by all the goodwill, he felt compelled to finally share his story. “I want people to know a little more about the person they have been cheering on for the past year,” he writes in The Answer Is...: Reflections on My Life. The book combines illuminating personal anecdotes with Trebek’s thoughts on a range of topics, including marriage, parenthood, education, success, spirituality, and philanthropy. Trebek also addresses the questions he gets asked most often by Jeopardy! fans, such as what prompted him to shave his signature mustache, his insights on legendary players like Ken Jennings and James Holzhauer, and his opinion of Will Ferrell’s Saturday Night Live impersonation. The book uses a novel structure inspired by Jeopardy!, with each chapter title in the form of a question, and features dozens of never-before-seen photos that candidly capture Trebek over the years. This wise, charming, and inspiring book is further evidence why Trebek has long been considered one of the most beloved and respected figures in entertainment.

Bilingual Education Nancy Lemberger 2013-12-16 This book grew out of the joys and challenges the author experienced as a Spanish/English bilingual teacher of culturally and linguistically diverse students. It tells what it is like to be a bilingual teacher. As a result, it helps other teachers and prospective teachers understand the complex nature of bilingual teaching, shares some successful teaching strategies that other teachers have used, and encourages teachers to find their own solutions despite limited support. The book is structured in three parts. The introduction explains how the book evolved, defines its relation to other qualitative research, and offers suggestions for how to use the book. The second part consists of eight bilingual teachers' stories that provide a glimpse of them as people, their schools and programs, their successes and struggles, and their solutions and coping mechanisms within their contexts. It concludes with a discussion chapter that looks at the teachers' collective strengths and struggles comparatively, connecting these to broader issues. The final section presents bilingual education resources -- useful information for practitioners. This includes foundation texts on the theories and practices of bilingual education, demographic information, a glossary of bilingual education terms, listings of curricula, tests, and literature mentioned by the teachers, and professional network sources.

The War and the Death of News Martin Bell 2017-06-01 Martin Bell has stood in war zones as both a soldier and a journalist. From Vietnam to Bosnia to Iraq, he has witnessed first-hand the dramatic changes in how conflicts are fought and how they are reported. He has seen the truth degraded in the name of balance and good taste – grief and pain censored so the viewers are not disturbed. In an age of international terror, where journalists themselves have become targets, more and more reports are issued from the sidelines. The dominance of social media has ushered in a post-truth world: Twitter rumours and unverifiable videos abound, and TV news seeks to entertain rather than inform. In this compelling account, one of the outstanding journalists of our time provides a moving, personal account of war and issues an impassioned call to put the substance back in our news.

Bare Reflections of the Heart Migdalia Castro 2009-05 Since I was a teenager in grade school I was writing poetry and short love stories. It was during the brake-up of my marriage that I took to writing again. All the feelings of abandonment, betrayal and humiliation gave me the inspiration to write what my heart, my soul and my mind was feeling during that awful time in my life. For me, writing was my therapy. Having no one to talk to, I would sit down with tears in my eyes, with my broken heart and my lonely self, the words would spilled out of me in a torrent of emotions that would leave me empty and drained. Everyone of us go through this kind of pain at one point or another in their lives, but not everyone takes time to write what they feel. I did. I hope that anyone who buy this book will share the same feelings I once felt.
