Dinghy Drop Tom Docherty 2006-06-01 September 1941 approval was given for the formation of two long-range Air-Sea Rescue squadrons. No 279 Squadron was formed at Bircham Newton in Norfolk. In the period leading up to the formation of the squadron there had been much work done in relation to air-dropped survival equipment such as the Lindholme Dinghy Dropping Gear, the Bircham Barrel and the Thornaby Bag. These contained such items as water, food, first-aid kits and distress signals. 279 was the first squadron to employ the airborne lifeboat, which was carried beneath the bellies of the portly Hudson. In January 1942 a practical boat, fitted with oars, sails and engines was put into production with the intention of slinging it under the bomb bay of the Hudson and to drop it by parachute. In October 1944 the Squadron re-equipped with Warwick Mk I aircraft moved to Thornaby in the NE of England. By now its ASR net was cast wide and there were detachments at Tain, Fraserburgh, Wick and Banff (all in northern Scotland) and Reykjavik.

Lotus Europa - Colin Chapman's mid-engined masterpiece Matthew Vale 2022-04-13 The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.
