Brent L. Smith 2011-01 This is a print on demand edition of a hard to find publication.

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. All Dressed in White Mary Higgins Clark 2016-09-20 "The second novel in the New York Times bestselling *Under Suspicion* series, following *The Cinderella Murder*, features intrepid television producer Laurie Moran as she investigates the case of a missing bride.

Godplayer Robin Cook 2014-09-11 From Robin Cook, the consummate master of techno-horror comes *Godplayer*, a spellbinding novel of medicine gone mad. It starts as the marriage of true minds - two gifted young physicians

burning with the will to heal, soul mates as well as lovers. From that first moment in the medical centre when pathology resident Cassandra Cassidy meets brilliant cardiac surgeon Thomas Kingsley, she knows they are meant to be together. Forced by a deteriorating eye condition to switch from her chosen field to psychiatry, Cassandra needs the support and approval the charismatic doctor so passionately offers; and Thomas, privileged only child of banker-industrialist, finds in the beautiful and vulnerable girl the boundless devotion he so desperately requires. But as Thomas continues his meteoric rise, what should have been fairy-tale happiness begins to disintegrate. Sainly to an adoring public, Thomas is something other to the woman who loves him - an erratic and hostile stranger whose inexplicable rages and bizarre behaviour are increasingly disturbing. As

the solidity of Cassandra's marriage begins to crumble, the dependable security of the hospital world around her seems equally menaced: Cassandra is convinced that someone is killing terminal patients - someone who holds the power of life and death in his hands and who wields it like the angel of death. Against her husband's furious objections, Cassandra takes it upon herself to stop the killings even as she fights to save her marriage. Only after she stumbles onto a terrifying discovery is she forced to realize that her dreams have metamorphosed into nightmares and that her search for the truth has opened the floodgates of unimaginable horror. *Godplayer* is a chilling confrontation of personalities in a hospital setting where the innocent too easily become the victims - and a powerful indictment of medicine's tragic inability to police itself.
