*Driver's License and Registration Please* Robert M. Arnold 2012-08 Biography, Robert M. Arnold Robert Arnold is a lifetime resident of Virginia and currently the President of Eagle Eye Enterprises LLC, a company he founded in 1997. Eagle Eye Enterprises offers RADAR and LASER training, agency evaluations, and consulting to Law Enforcement agencies nationwide. Mr. Arnold developed RADAR and LASER training software that is in use nationwide, to include Northern Virginia Criminal Justice Academy. His training and software has raised the bar in police training and has set the industry standard to an unprecedented level. He has trained and developed NVCJA instructors in the field of RADAR. Master Police Officer Arnold retired in March of 2011 from the Prince William County Police Department after serving over twenty-seven years. He is a founding member of his department's Motor Squad that was created in 1987 and he remained there until his 2011 retirement. During his Police career he served ten years as a Special Weapons and Tactics team member, Certified DCJS Instructor in the areas of RADAR, LASER, Police Motorcycle, and Emergency Vehicle Operator Course (EVOG). He received countless commendations for his work throughout his career. He authored his department's motor squad operational and training manuals and escort protocol. He developed and implemented his motor squad's training program and provided continuous motorcycle training and retraining to all squad members until his 2011 retirement. His motorcycle training approach included a skills level evaluation program that measured individual riding levels. This program was divided into five categories of riding proficiency that proved to develop a rider's incentive to set goals to achieve greater riding skills... Shortly after attending a Virginia Instructor Development course in 1990 and successfully completing his RADAR Instructor certification through the Virginia Commonwealth University, he developed a speed enforcement training program that he managed and retained the Lead Instructor role until his retirement. His program evolved over the years and is considered an industry leading training program throughout the nation. He is considered an expert in his field and has provided expert testimony during RADAR and LASER cases in the Circuit Courts of Prince William and Madison counties. The Prince William County Police Department was the first Law Enforcement Agency in Virginia to use the speed measuring device, LIDAR. Robert is credited with its implementation and provided LIDAR training seminars throughout the state of Virginia to assist other jurisdictions during their startup phase. His efforts lead to the successful statewide expansion of this speed measuring equipment that resulted in legislation authorizing the use statewide. Robert's career roles included adjunct Instructor positions with the Prince William County and the Northern Virginia Criminal Justice Academies. He provided instruction to hundreds of law enforcement students in the operation of emergency vehicles and police motorcycles. He devoted his entire career to achieving expert status in his field and has shared his expertise through the training of countless Law Enforcement Officials.

**Paramedic: Calculations for Medication Administration** American Academy of Orthopaedic Surgeons (AAOS), 2009-10-05 "I love math!" "I hate math!" Whether you're a math aficionado or someone who cringes at calculations, Paramedic: Calculations for Medication Administration will make you a master of paramedic math. This textbook teaches the basic principles of mathematics and applies these principles to cases that paramedics face on the job. Chapters cover math rules and principles; fractions, decimals, and percentages; ratios, proportions, and conversion factors; and rate-dependent and weight-based calculations. Practice problems are scattered throughout the chapters; students practice as they go. Every chapter highlights how paramedics can make use of the math knowledge that they already have in order to solve more complicated problems. Chapters begin with the simple and obvious, and progress to the level used in the field. Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition.

*Fire Apparatus Driver/Operator* lafc 2015-06-22 This second edition of Fire Service Pump Operator has been thoroughly updated to serve as a complete training solution that addresses pump operation, safe driving techniques, tiller and aerial apparatus operation, and water supply considerations. From basic apparatus maintenance to fire pump theory and advanced hydraulic calculations, this single manual covers everything a fire service driver/operator needs to know. Fire Service Pump Operator: Pump, Aerial, Tiller, and Mobile Water Supply, Second Edition meets and exceeds the job performance requirements of Chapters 4, 5, and 10 of NFPA 1002, Fire Apparatus Driver/Operator Professional Qualifications, 2014 Edition. It also addresses all of the course outcomes from the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) Associates (Core) Fire Protection Hydraulics and Water Supply course. *Nominations of Robert Talcott Francis, II and John Joseph Goglia to be Members of the National Transportation Safety Board; Robert Clarke Brown to be a Member of the Board of Directors of the Metropolitan Washington Airports Authority* United States 1996 *Enterprise Management with SAP SEM/business Analytics* Marco Meier 2003 In order to make strategy happen there is a need for powerful management information systems. SAP focuses on the application of modern business administration concepts, e.g. Value Based Management, the Balanced Scorecard, the Management Cockpit or flexible planning methods. The book describes the methodology and implementation of a powerful tool for enterprise management. Practical examples show how SAP Strategic Enterprise Management/Business Analytics (SAP SEM/BA) can help to improve cross functional planning, reporting and analyzing. SAP SEM/BA is a leading edge IT-solution for top management and related departments in large enterprises and groups. It demonstrates the state of the art of modern management information and decision support systems.
